TAKING CARE OF YOUR FAMILY IS WHAT YOU DO.

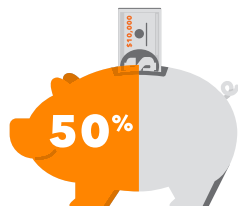

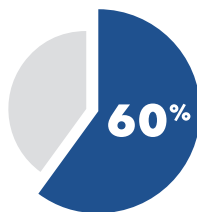

The health, safety, and security of your loved ones is paramount and while you make sure that seat belts are buckled, smoke alarms are working, and everyone sees the doctor regularly, there is a good chance your financial safety and security is at risk.

DID YOU KNOW THAT

accidents and serious illness like cancer or heart attack affect millions of people every year

An astonishing 60% of all U.S. bankruptcies stem from medical costs.

50% U.S. households have less than \$10,000 in savings while the average out-of-pocket expense for a critical illness is well over \$10,000.

When you couple a potentially big decrease in income with an uptick in expenses and little in the way of savings to fall back on, it's easy to see how the potential for **Financial Catastrophe** escalates at the worst possible time.
